

INTELLECTUAL PROPERTY AND TECHNOLOGY TRANSFER OFFICE (IPTTO), UNIVERSITY OF NIGERIA, NSUKKA.

Office of the Vice Chancellor University of Nigeria, Nsukka, Nigeria

INTRODUCTION

The Intellectual Property and Technology Transfer Office (IPTTO) of the University of Nigeria, Nsukka is a directorate created to promote and manage the University Intellectual Property Portfolio, which includes patents, copyrights, designs and trade marks. The IPTTO also serve to enhance the ease of transfer and localization of Technologies across science and non-science disciplines. Thus, the IPTTO positions itself as a bridge between the research disciplines of the University and cognate Industry partners.

OUR VISION

The IPTTO of the University of Nigeria Nsukka is to become a foremost resourceful institutional intellectual property manager with a proven track record of large, rewarding intellectual properties portfolio harnessed from the university, and a virile bridge for fostering strong university-industry alliance for mutual socioeconomic benefits.

Our Mission

Our mission is to promote qualitative original research through sensitization, to foster strong collaboration between university and industry, provide patents registration and acquisition service, promote robust patent policy and drive commercialization of products of patents and innovations for sound economic rewards.

What we do

As foremost IPTTO we:

- Carry out sensitization campaign aimed at stimulating interest in original research geared towards promoting innovations within the University
- Link and match Industries, SMEs, and Private sector players with University Innovators/Inventors for mutually rewarding benefits
- provide adequate assistance and facilitate the process of patents acquisition on products of original research and creative activities emanating from the University
- formulate and promote an effective Intellectual Property Policy for the University
- promote the commercialization of research and development (R&D) results and products in the University
- to midwife a seamless Technology transfer from the University/innovators to suitable development industry partners for mutual economic benefit.
